

TIYAPORN RAKYOOPRASERT

DATA ANALYST INTERN

Address : 126 Moo 9, Bua Ban Subdistrict, Yang Talat District, Kalasin 46120, Thailand
Phone : 082-447-9942
Email : tiyapornrakyoop@gmail.com

SUMMARY

Fourth-year Digital Business and Information Systems student and AUCC 2026 award winner with hands-on experience in data analytics, machine learning, and workflow automation. Proficient in leveraging Python, SQL, Power BI, and n8n to transform raw data into actionable strategies. Seeking a Data Analyst role to help the organization optimize operational processes, reduce costs, and drive growth through reliable, data-driven insights.

EDUCATION

Mahasarakham Business School ,Mahasarakham University, Thailand **2023 - Present**
Bachelor of Business Administration (Digital Business and Information Systems) GPAX: 3.39 /4.00

PROJECTS AND ACADEMIC WORKS

The 14th ASEAN Undergraduate Conference on Computing (AUCC 2026) **Feb 2026**
A Forecasting the Growth of Electric Vehicle Using Machine Learning

- Evaluated 3 ML algorithms on 5-year macroeconomic datasets using Altair AI Studio, deploying a Neural Network model with 86.00% R-squared accuracy.
- Awarded "Very Good" Oral Presentation for translating complex technical data into strategic insights for Thailand's EV charging station expansion.

Artificial Intelligence in Digital Business - AI Automation for SME Sales & Customer **Mar 2026**
Analytics: A 24/7 automated chat and sentiment analysis system

- Tested n8n, Gemini 1.5 Pro, and Looker Studio integrations to build an automated chat and real-time dashboard.
- Pitched a zero-error system architecture to the panel, highlighting a 90-95% cost reduction for SMEs.

Entrepreneurship and New Venture Creation - Emotional Waste Bin: A sound-based art **Mar 2026**
therapy platform that transforms negative emotions into digital art

- Analyzed financial data to formulate the complete cost structure,estimating budgets and cross-functional expenditures to validate business feasibility.
- Utilized SketchUp to design a detailed 3D prototype model, effectively visualizing the product concept for stakeholder presentations.

Business Database Management System & Analysis and Design for Digital Business **Mar 2025**
FlaunFit : An online dress rental platform.

- Collaborated with team members to analyze digital business requirements, designing comprehensive system architectures (DFD and Use Case) using Draw.io.
- Demonstrated strong analytical thinking by developing Entity-Relationship Diagrams (ERD) and optimizing database queries for efficient inventory tracking.

SKILLS

- **Data Analytics & BI:** Python, SQL, Microsoft Power BI, Altair AI Studio
- **Databases & Automation:** phpMyAdmin, n8n (Workflow Automation)
- **Frameworks & Systems Design:** CRISP-DM Framework, Entity-Relationship Diagrams (ERD), Data Flow Diagrams (DFD)
- **Design & Prototyping:** Figma, Draw.io, SketchUp, Canva
- **Soft Skills:** Data Storytelling & Presentation, Analytical Thinking, Business Acumen, Cross-Functional Collaboratio
